We know that not all courier systems are the same, but we assumed that the basic version would do the job for all products. The cheapest may not necessarily be the best for you. Our comparison is indicative; for exact costs, please contact the issuer. We calculated with 1 dispatcher (where necessary). The products are listed in order of cost/shipment. The calculation is based on the prices available on the websites (monthly fee, no special discounts, no extras). Mav-IT Ltd. 2025
